

Redx

PIONEERING THE PATH BEYOND NET-ZERO BILLS

AUSTRALIAN COMPANY

Who We Are

Redx Technologies is a proudly Australian company bringing game-changing, world-first patented technologies to revolutionize energy solutions for homes, commercial and industrial sectors. We're honored to be recognized one of the **renewable equipment supplier** listed by Australian Government (Austrade). At Redx, we specialize in **smart solar battery and inverter systems** that help Australian households and industrial sectors save on energy costs, optimize energy use, and stay powered even during outages.

What We Do

We specialize in designing and delivering innovative **solar batteries and inverter systems**, empowering homes with smart, efficient, and sustainable energy solutions. Our main focus is on maximizing energy savings and providing reliable backup power.

Our Smart Solution

Redx AI is an AI-powered software, designed to maximize **energy savings** by intelligently managing how and when use stored battery energy. This Smart Solution predicts electricity prices, energy demand, weather, and solar generation to create smart schedules that save money.

Why Us

Up to 15-Year Warranty

The first in Australia to offer an extended 15-year product warranty.

30+ WorldWide Hardware Patents

showcasing innovation and cutting-edge technology in energy solutions

Integrated Hardware and Software

Redx combines advanced hardware with AI-powered software for seamless and efficient energy solutions

AU Based R&D Team

An Australian team develops the cloud-based EMS platform, AI, and control systems, delivering innovative local solutions.

Local Aftersales Service

Reliable local based customer support to ensure your system works seamlessly.

Local University Collaboration

Working Closely with Griffith university on Industrial PhD Project and advancing renewable energy solutions.

AU Local Data Storage

Safe and secure data storage in Australia with strong privacy and cybersecurity protections.

Our Products Range

AC-Coupled Batteries
RX-2505AC

AC-Coupled Batteries
RX-5000AC

Hybrid Batteries
RX-5000HY
RX-7000HY

Smart Battery
RX-7000Plus

Commercial Battery
RX-215K
RX-1000K

Our Patents (US and International Patents)
